## Caring For Older Goat Residents Infographic

With proper care, goats have the opportunity to live long lives. The average life expectancy for **domesticated** goats ranges 10-15 years, with some individuals living past the age of 20! Many factors affect an individual's expected lifespan, including some that are beyond a caregiver's control such as their breed, genetics, and health status upon arrival, but their environment, as well as the nutrition and care they receive after rescue factor in as well. This infographic covers a few of these areas in a fun, easy-to-share format. To read the full resource, click [here](#)!

# Caring For Older Cows Infographic

Like all animals, cows may need a little extra care to help them thrive in their old age. This infographic highlights a few areas you will want to pay close attention to as your residents age. For the full resource, click [here](#)!

# Caring For Older Sheep Residents Infographic

With proper care, sheep have the opportunity to live long lives. The average life expectancy for **domesticated** sheep ranges from 10-12 years, with some individuals living past the age of 20! Many factors affect an individual's expected lifespan, including some that are beyond a caregiver's control, such as their breed, genetics, and health status upon arrival. However, their environment, as well as the nutrition and care they receive after rescue, factor in as well. This infographic touches on some of these and is easily shareable!
