

Caring For Older Sheep Residents Infographic

With proper care, sheep have the opportunity to live long lives. The average life expectancy for **domesticated** sheep ranges from 10-12 years, with some individuals living past the age of 20! Many factors affect an individual's expected lifespan, including some that are beyond a caregiver's control, such as their breed, genetics, and health status upon arrival. However, their environment, as well as the nutrition and care they receive after rescue, factor in as well. This infographic touches on some of these and is easily shareable!
